DETAILED ACTION

Election/Restrictions

1. Claims 1 – 18 are generic to a plurality of disclosed patentably distinct species comprising 14 different embodiments, as best understood from the ¹⁸ aspects of the invention described on pages ²⁻⁶ 31 through page 33 of the specification and as understood, discloses the following species of the invention:

Species I (First aspect), page 31; first full paragraph.

Species II (Second aspect), page 31; second full paragraph.

Species III (Third aspect), last paragraph of page 31 to first paragraph on page 32.

Species IV (Fourth aspect), page 32; first full paragraph.

Species V (Fifth aspect), page 32; second full paragraph.

Species VI (Sixth aspect), third full paragraph.

Species VII (Seven and Eleventh aspects), last paragraph of page 32 to first paragraph on page 33.

Species VIII (Eighth and Twelfth aspects), page 33; first full paragraph.

Species XI (Ninth and Thirteenth aspects), page 33; second full paragraph.

Species X (Tenth and Fourteenth aspects), page 33; third full paragraph.

Species XI (Fifteenth and Sixteenth aspects), page 33; fourth full paragraph.

Species XII (Seventeenth and Eighteenth aspects), page 33; fifth full paragraph.

Species XIII (Ninth and Thirteenth aspects), page 33; second full paragraph.

Art Unit: 3611

2. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, none of the claims appear generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

3. A telephone call was made to Steven Meyer on 7/25/03 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 3611

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel Yeagley whose telephone number is 703-305-0838. The examiner can normally be reached on Mon. - Fri; first Friday off.
